^{1/} Includes loans made directly by Commodity Credit Corporation and loans made by banks and other lending agencies under Commodity Credit Corporation obligations to purchase. Renewals and extensions of loans previously made are excluded.

^{2/} Partly estimated.

^{3/} Loans to the Cotton Producers Pool were second lien advance on cotton in the pool. The 1933 advance was \$20 per 500-pound bale and the 1934 advance was an additional \$10 on cotton remaining in the pool. The number of bales involved is excluded from the quantities placed under loan.

R Indicates a revision has been made in the crop year data for those crops which appeared in this table on loans made through June 30, 1956, but which were not carried in Table 12 of the CCC Report of Financial Condition and Operations as of June 30, 1957. Such revisions are caused by adjustments being made in the loan ledgers for the particular crop subsequent to the final published data for the crop in prior year Reports of Financial Condition and Operations.
